

New Products Release

02/13/2017

ProSlot LLC.

*Attention:
Racers & Track Owners*

During these tough economic times, everybody needs to get the most bang for his or her buck. We at ProSlot understand this and are proud to introduce our new line of economic FK Poly-Neo based motors and parts.

Introducing:

***The
“FK 12 & FK 19 series”
"Motors & Parts"***

These were designed around our world leading Euro can and Endbell. The magnets are high grade radial oriented Poly-Neo that matches the shape and thickness of our standard Euro ceramic magnet. These magnets were designed by and manufactured specifically for ProSlot. This means that ALL of our 4000 series Euro armatures will fit with no changes. This is the most powerful Poly-Neo Euro setup currently available. The setups average gauss reading is “1030 at the tips” putting them on par with our High grade "Purple Dot" ceramic setups. What this means is unbelievable torque in a small package.

ProSlot LLC.

PS-4012-FK ProSlot Euro 12 Poly-Neo FK motor

This motor uses the PS-4027 "Poly-Neo" setup with our PS-4012 Euro X-12 armature installed and includes Goldust brushes. Built for the new wave of "PRO" class FK racing.

\$49.95

PS-4027 ProSlot FK Poly-Neo Set-up

These were designed around our world leading Euro can and Endbell. The magnets are high grade radial oriented Poly-Neo that matches the shape and thickness of our standard Euro ceramic magnet. They were designed by and manufactured for ProSlot and they come standard with the PS-4011 modified endbell. This means that ALL of our 4000 series Euro armatures will fit with no changes. This is the most powerful Poly-Neo Euro setup currently made. The setups average gauss reading is "1030 at the tips" putting them on par with our High grade "Purple Dot" ceramic setups. What this means is unbelievable torque in a small package.

\$13.95

ProSlot LLC.

PS-4028-FK ProSlot Euro FK19 Poly-Neo motor

This motor uses the PS-4027 "Poly-Neo" setup with our PS-4029 FK19 armature installed and includes Goldust brushes. Built for the new class FK drag racing.

\$61.95

PS-4029 ProSlot FK19 armature

A .513 diameter, G20, CNC machine wound armature on our race proven M2 .350 stack blank. This armature is specially made to fit the PS-4027 "Poly-Neo" setup and retro fit Hawk 19 motors. It comes with 38 degrees timing and is precision balanced.
(requires modified endbell PS-4011 for comm clearance)

\$42.95
