Long time Slot Car Enthusiast and Wife Purchase ProSlot Ltd.

New owners vow to uphold same high quality manufacturing

Lowell, MI – Another West Michigan husband and wife will continue the path of the longtime owners of the niche manufacturer ProSlot, Ltd. John and Angela Miller of Hartford, purchased the 44 year old company from Dan and Cheryl DeBella of Lowell after the ProSlot founders decided to retire.

“I’ve been a slot car fan and enthusiast for most of my life,” said John Miller. “Turning my hobby into a profession for me and my wife is a dream come true.”

Miller said they are committed to maintaining the same principals and high quality manufacturing practices that have contributed to ProSlot’s strong success over the years. To help ease the ownership transition, the Millers retained 24 year employees Joe and Roger Chiechi, who have played an integral role in the manufacturing process at the company. In addition, the DeBellas will mentor the Millers throughout the transition period.

“We are pleased that ProSlot will be in great hands,” says company owner Dan DeBella, “It is comforting knowing our business will continue to be run by people as enthusiastic about slot cars as Cheryl and I.”

“We want to assure our distributors that ProSlot products will have the same superior quality they have come to expect,” says John Miller, “We are doing everything we can to make the transition in ownership as smooth as possible.”

ProSlot Ltd. is currently located in Lowell, MI but will soon relocate operations to Hartford, MI.

ProSlot Ltd. manufactures slot car parts, including armatures, chassis and motor parts for slot car markets in the U.S. and around the world. There are three employees besides the new owners.
