

September - 2022

RECONDITIONING SERVICES

We race condition any brand armature. Every armature is ultrasonically cleaned, diamond trued, and precision rebalanced. We take the lightest cut possible to true your commutator and we calibrate our machine for each armature. Please include your name, address, phone number and email address so we can contact you during normal business hours for payment and shipping options.

- Armature Reconditioning \$5.50
- Engraving \$.50
- Grind stacks up to .010 reduction \$5.00
- Grind stacks greater than .010 reduction \$7.00
- Remagnetize ceramic magnets in or out of the can, including R/C Magnets \$1.25

ADDITIONAL SERVICES

- Resistance and Induction readings done on each armature and marked on the tubes \$1.50

ProSlot LLC. – 12 West Main St. - Hartford, MI 49057

PH: (616) 897-6000

Motor Rebuilding Program

PS-725 Dragmaster SPEC motor..... \$35.00

Includes: Ultrasonic cleaning, re-zapping, recondition armature, new G7 brushes, Red springs, bushings (if needed) & reseal the motor.

Additional cost for replacement parts may apply

PS-748-12, PS-748-20 & PS-733 Dragmaster Motors... \$35.00

Includes: Ultrasonic cleaning, re-zapping, recondition armature, new G7 brushes, Red springs, shunt wire & new bushings if needed.

Additional cost for replacement parts may apply

C-can & D-can Motors..... \$35.00

Includes: Ultra sonic cleaning, re-zapping, recondition armature, new G7 brushes, Red springs & new bushings if needed.

Additional cost for replacement parts may apply

Pro Slot VR Neo Motors..... \$35.00

Includes: Ultra sonic cleaning, recondition armature, new G7 brushes, Red springs & new bushings if needed.

Additional cost for replacement parts may apply

Please include your name, address, phone number and email address so we can contact you for payment and shipping options.

PS-5010 Chassis Cotter Clips – 6 pcs **\$4.00** *Quantity and Price Change*

SpeedFX SRS C-CAN MOTORS

PS-3000 X12 Balanced Motor- Black Endbell **\$37.00**

PS-3000S X12 Balanced Motor - Black Endbell - Double Security Sealed **\$38.00**

PS-3001 Contender Balanced Motor - Natural Endbell **\$37.00**

PS-3001S Contender Balanced Motor - Natural Endbell - Double Security Sealed **\$38.00**

PS-3006 X12 Replacement Balanced Armature (commutator trued) **\$16.50**

PS-3007 Contender Replacement Balanced Armature (commutator trued) **\$16.50**

PS-3008 Replacement assembled endbell w/silver plated hardware **\$12.00**

PS-3011 Group 12 SRS Motor

We completely blueprint our imported SRS C-Can motor. This motor has our new PS-3013 armature.

We specifically designed this motor for reliability at an affordable price. The armature is tagged, epoxied, trued and balanced. This motor performs perfectly for the road racer and drag racer. **\$40.99**

PS-3013 Group 12 Armature

We begin with our PS-3006 imported armature and tag it with the number “12” for identification. We then run it through the vacuum chamber with high temperature epoxy. The commutator is diamond trued, and then dynamically balanced on our Hoffman balancer. This armature is designed for increased reliability, and it will fit in any C-Can set-up. **\$21.50**

*Note: All replacement parts for these motors are available in our section **AMotor and Endbell Parts***

SpeedFX 16D/S16D Motors & Parts

PS-2000 16D Balanced Motor **\$22.50**

PS-2001 S16D Balanced Motor **\$22.50**

PS-2002 16D Balanced Motor - Double Security Sealed **\$23.50**

PS-2003 S16D Balanced Motor - Double Security Sealed **\$23.50**

PS-2004 16D/S16D Motor Setup **\$20.90**

PS-2005 16D/S16D Motor Can **\$9.00**

PS-2006 16D Replacement Balanced Armature (commutator trued) **\$16.75**

PS-2007 S16D Replacement Balanced Armature (commutator trued) **\$16.75**

PS-2008 D-Can Replacement endbell **\$5.75**

PS-2009 D-Can Replacement assembled endbell with plated hardware **\$12.00**

PS-2010 Plated Brush Hood and Heatsink Set **\$7.50**

PS-2011 Alloy Spring Cups (1 pr.) **\$4.75**

PS-2012 Endbell assembly screws Phillips head (12 pcs.) **\$3.00**

PS-2013 Motor Springs -double overhead (6 pr.) **\$9.00**

PS-2014 Motor Brushes (6 pr.) **\$10.60**

PS-2015 2 X 5 Can & Endbell Oilites (6 pcs.) **\$5.60**

PS-2016 D-Can Matched Ceramic Magnets (1 pr.) **\$12.00**

SpeedFX 16D/S16D Blueprinted Motors & Setups

Our ProSlot Craftsman straightens the can on a specially made fixture, solders in the oilites or ball bearings, aligns and hones the brush hoods. Each motor has our X7 brushes installed with Champion red springs and then fully tested before shipping.

PS-2100 D-Can Setup with Matched Magnets **\$25.50**

PS-2100-B D-Can Setup with Matched Magnets and sized to fit .560 diameter armatures **\$28.40**

PS-2101 D-Can Motor with S16D Balanced Armature **\$40.95**

PS-2101S D-Can Motor with S16D Balanced Armature - sealed and engraved **\$41.95**

PS-2102 D-Can Motor with 16D Balanced Armature **\$40.95**

PS-2102S D-Can Motor with 16D Balanced Armature - sealed and engraved **\$41.95**

PS-2103 D-Can Motor with PS-700 S16D Unbalanced Armature **\$62.95**

PS-2104 D-Can Motor with PS-700 S16D Balanced Armature **\$62.95**

PS-2105 D-Can Motor with PS-700S Outlaw S16D Balanced Armature **\$62.95**

PS-2106 D-Can Motor with PS-706 16D Unbalanced Armature **\$62.95**

PS-2107 D-Can Motor with PS-706 16D Balanced Armature **\$62.95**

PS-2108 D-Can Blueprinted S16D Econo ProStock (EPS) Motor **\$62.95**

PS-2108A D-Can Blueprinted S16D Econo ProStock Motor with PS-105 Drag S16D armature **\$70.95**

PS-2109 D-Can Econo ProStock (EPS) Armature **\$29.50**

PS-2110 D-Can Motor with .560 Balanced Armature. Your choice of (A) S16D, (B) Outlaw S16D, (C) 16D **\$63.95**

Note: Specify timing of 25, 38, 45 or 50 degrees for motors with PS armatures..

**Add \$9.00 for single or \$18.00 for double Ball bearings & \$9.00 for copper hardware.*

Euro MK1 Motors & Parts

Available Security Sealed

PS-4000 Euro MK1 Motor - 26,100 + rpm, 155/gm-cm, 280mA, standard with 45 degree springs. Designed for 1/32 and 1/24 Scale-Home, Club and Commercial Racing. CW or CCW rotation **\$21.95 (Add \$1.00 for sealed motor)**

PS-4001 Euro MK1 Motor - 37,000 + rpm, 160/gm-cm, 300mA, standard with 60 degree springs. Designed for 1/32 and 1/24 Scale - Home, Club and Commercial Racing. CW or CCW rotation **\$21.95 (Add \$1.00 for sealed motor)**

PS-4001S Euro MK1 Motor - 37,000 + rpm, 160/gm-cm, 300mA, standard with 60 degree springs. w/Purple Seal. Designed for 1/32 and 1/24 Scale - Home, Club and Commercial Racing. CW or CCW rotation **\$22.95**

PS-4002 Euro MK 1 Motor - 47,000 + rpm, 160/gm-cm, 950mA, standard with 90 degree springs. Designed for 1/32 and 1/24 Scale - Home, Club and Commercial Racing. **\$21.95 (Add \$1.00 for sealed motor)**

PS-4002B Euro MK1 Motor with American made PD (Puppy Dog) armature as used in retro can am racing, with 4 can screws and double seal. This motor runs correctly CW Rotation. **\$62.00**

PS-4002C Euro MK1 Motor with American made BD (Big Dog) armature CW Rotation . **\$62.00**

PS-4002-12 Euro MK 1 Motor with American made X12 armature 40* CW Rotation **\$62.00**

PS-9001 Sentry 100T/31.5 AWG Ceramic Magnet, New Open Hole Can, Designed for Nascar, Indy Car & Hard body Racing **\$22.95 (Add \$1.00 for Seal)**

PS-9001S Sentry Purple Seal 100T/31.5 AWG Ceramic Magnet, New Open Hole Can, Designed for Nascar, Indy Car & Hard body Racing **\$22.95**

PS-9002B Euro MK1 Motor with American made PD (Puppy Dog) armature as used in retro can am racing, with 4 can screws and double seal. This motor runs correctly CW Rotation. **\$62.00**

PS-9002C Euro MK1 Motor with American made BD (Big Dog) armature CW Rotation . **\$62.00**

PS-9002-12 Euro MK 1 Motor with American made X12 armature 40* CW Rotation **\$62.00**

PS-9003 Sentry Set-up, Ceramic magnet, and comes with a honed endbell to fit American Made Armatures **\$21.50**

**Add \$9.00 for single or \$18.00 for Double ball bearing motors and \$9.00 for CPR Hardware*

PS-4008ALT Replacement armature for the PS-4002FK (commutator trued and rebalanced) **\$16.95**

PS-4009 PD (Puppy Dog) American made replacement armature (requires modified endbell PS-4011 for comm clearance). CW Rotation **\$42.50**

PS-4010 BD (Big Dog) 55 turns of 30 gauge with 25 degrees timing American made replacement armature (requires modified endbell PS-4011 for comm clearance). CW Rotation **\$42.50**

PS-4011 Replacement endbell modified for commutator clearance with American made armatures **\$11.50**

PS-4012 X12 with 40 degrees timing American made replacement armature (requires modified endbell PS-4011 for comm clearance). CW Rotation **\$42.50**

PS-4013-45 Replacement Springs 45 degrees 6 pr. **\$7.00**

PS-4013-60 Replacement Springs 60 degrees 6 pr. **\$7.00**

PS-4013-90 Replacement Springs 90 degrees 6 pr. **\$7.00**

PS-4014 Euro Size Replacement Motor Brushes 6 pr. **\$10.60**

PS-4016 Hawk Replacement Armatures **\$42.50**

Note: Clockwise or counter clockwise Rotation when armature is viewed from the can end.

ProSlot Euro Poly Neo Motors & Parts

PS-9000 Speedball - New Open Hole Can Design, 55T/30AWG, 25* Timing, Poly Neo Magnet, Fully Rebuildable Designed for Road Course and Oval Racing **\$22.95**

PS-9007 Crazy Eagle Motor With our American Made Armature 65T/30 Gauge Arm.350 Stack, 25* timing. This motor is the American Made Counterpart for the PS-9000 **\$55.00**

PS-9007CE Crazy Eagle Replacement Armature 65T/30 Gauge Arm.350 Stack, 25* timing **\$42.50**

PS-4007SC Replacement Arm for PS-4007 Scorpion Motor. **\$42.50**

PS-9027 **New Open Hole Can Poly-Neo Set-up**, This set-up is fitted with high grade radially oriented Poly-Neo Magnets with a honed endbell to fit our 4000 series Euro armatures. This is the most powerful Poly-Neo Euro setup made. With "1030 gauss" readings at the tips these magnets are on par with our High Grade "Purple Dot" ceramic set-ups. What this means is unbelievable torque in a small package. **\$21.50**

PS-9012 Group 12 Poly-Neo Motor. We use our New Open Hole Poly-Neo Can, and plug in our CNC wound PS-4012 Euro X-12 armature, and finish it with our X7 motor brushes. **\$55.00**

**Add \$18.00 for Double ball bearing motors and \$9.00 for CPR Hardware*

PS-USRA SPEC Euro MK1 Motor specifications: 55 turns of 30 AWG, 38* of Timing, .350 stack length, .517 Diameter, Tagged "USRA", X7 Euro Motor Brushes, PS-605 Red Springs. **\$55.00**

Velociraptor Euro MK1 Series of Dragmaster Motors and Components w/USA Made Armatures

Our ProSlot Craftsman straighten the can on a specially made fixture, solders in the oilites or ball bearings, aligns and hones the brush hoods and then installs matched magnets. Each motor has our X7 brushes installed with Champion red springs and then fully tested before shipping.

PS-4017 **Velociraptor "NEO" setup** This setup has standard .540 airgap and comes with our PS-4011 modified endbell. It accepts any of our Euro armatures. This is the most powerful Euro MK1 setup currently made, gaussing 1800 points and producing incredible torque. Add \$18.00 for double ball bearings **\$29.95**

PS-4018 Velociraptor “NEO” magnets They are made to the same dimensions as our OEM Euro MK1 ceramic magnet. This means that they install in our standard Euro MK1 can with the stock magnet retaining clips and a drop of super glue. No epoxy or special tools needed. **\$24.95**

PS-4019 Velociraptor VR 12 “NEO” motor This motor uses the new PS-4017 “Neo” Euro MK1 setup with a specially made .500 diameter VR12 machine wound armature on our race proven Intruder blank and includes X7 brushes. This motor was built for the new wave of “NEO” F/C racing. Our testing using an 85 gram hardbody test car netted .720 ET’s @ 70+ MPH. Recommended starting gear ratio 14/52. Add \$18.00 for double ball bearings. **\$66.95**

PS-4020 Velociraptor VR 20 “NEO” motor this motor uses the new PS-4017 “NEO” Euro MK1 setup with a specially made .500 diameter VR20 machine wound armature on our race proven Intruder blank and includes X7 brushes. This motor was built for the “Serious” bracket racer and would be great for a “NEO” G20 F/C class. Our testing using an 85 gram hardbody test car netted .640 ET’s @ 80+ MPH. Recommended starting gear ratio 14/54. Add \$18.00 for double ball bearings. **\$71.95**

PS-4021 Velociraptor VR eXtreme “NEO” motor This motor uses the new PS-4017 “NEO” Euro MK1 setup with a specially made .500 diameter VR eXtreme machine wound armature on our race proven Intruder blank and includes X7 brushes. This motor was built for the “Ultimate” bracket racer and “Outlaw NEO” class racer. Our testing using an 85 gram hardbody test car netted .590 ET’s @ 90+ MPH. This motor has no equal in performance for the money. Recommended starting gear ratio 14/54. Add \$18.00 for double ball bearings. **\$74.95**

PS-4022 Velociraptor VR 20 “NEO” Replacement Armature Machine wound G20 armature, .500 diameter, wound on our race proven Intruder blank. This armature is specially sized to fit the PS-4017 “NEO” Euro MK1 setup to provide the ideal airgap with no other modifications needed. **\$42.50**

PS-4023 Velociraptor VR eXtreme “NEO” Replacement Armature Machine wound, eXtreme wind armature, .500 diameter, wound on our race proven Intruder blank. This armature is specially sized to fit the PS-4017 “NEO” Euro MK1 setup to provide the ideal airgap with no other modifications needed.. **\$42.50**

PS-4024 Velociraptor VR Custom “NEO” Armature This is a custom hand wound all-out Topgun style armature featuring our EDM commutator, wound on our race proven Intruder blank. This armature is .500 standard diameter and is also available in .480 and .490 diameters for the custom motor builders as a special order. Standard wind is 25/25. Also available in 18/24.5, 15/24, 14/24, 14/23 **\$115.00**

PS-4025 Velociraptor VR Open “NEO” motor This motor uses the new PS-4017 “NEO” Euro MK1 setup with a specially made .500 diameter custom hand wound all-out Topgun style armature featuring our EDM commutator, wound on our race proven Intruder blank and our copper hardware on the endbell. Standard wind 18/24.5 and double ball bearings. Also available in 25/25, 15/24, 14/24, 14/23 **\$173.95**

PS-4026 Velociraptor VR 12 “NEO” Replacement Armature Machine wound G12 armature, .500 diameter, wound on our race proven Intruder blank. This armature is specially sized to fit the PS-4017 “NEO” Euro MK1 setup to provide the ideal airgap with no other modifications needed. **\$42.50**

PS-4031 Velociraptor WF Wolf - “NEO” motor This motor uses the PS-4017 “NEO” Euro MK1 setup with a specially made .500 diameter WF “Wolf” machine wound armature on our race proven Intruder blank and includes X7 Euro brushes. This motor was built as the next step up from the VR eXtreme motor for the ultimate “Outlaw NEO” class racer. This is the “Hottest” CNC machine wound armature available. Recommended starting gear ratio 15/54. (Sidewinder) Add \$18.00 for double ball bearings. **\$74.95**

PS-4032 Velociraptor WF Wolf “NEO” CNC Machine wound, 24T26 wind armature, .500 diameter, wound on our race proven Intruder blank. This armature is specially sized to fit the PS-4017 “NEO” Euro MK1 setup to provide the ideal airgap with no other modifications needed. This is the fastest CNC machine wound armature available for the PS-4017 “NEO” MK1 setup. **\$42.50**

PS-VX 300 Micro Raptor_ DBL BB, CPR Hardware, .300 Stack/.500 Dia. with VX 30/26 CNC wound armature, Champ Red Springs and G7 Euro brushes. This motor was developed for “No Bar Racing” & light weight sidewinder drag cars. **\$101.95**

PS-VX 300A Micro Raptor_ Replacement armature for the PS-VX 300 motor. .300 stack, .500 Dia, 30/26 wind. **\$42.50**

PS-911 Razorback Drag Motor! All New Open Hole Can design W/30T/28 AWG armature. Hard Neo Magnet W/2000+ Gauss. **\$35.95**

PS-9017 Velociraptor “NEO” Open Hole Setup This setup has standard .540 airgap and comes with our PS-4011 modified endbell. It accepts any of our Euro armatures. This is the most powerful Euro MK1 setup currently made, gaussing 1800 points and producing incredible torque. Add \$18.00 for double ball bearings **\$29.95**

PS-9019 Velociraptor VR 12 “NEO” Open Hole Setup with a specially made .500 diameter VR12 machine wound armature on our race proven Intruder blank and includes X7 brushes. Add \$18.00 for double ball bearings. **\$66.95**

PS-9020 Velociraptor VR 20 “NEO” Open Hole Setup with a specially made .500 diameter VR20 machine wound armature on our race proven Intruder blank and includes X7 brushes. This motor was built for the “Serious” bracket racer and would be great for a “NEO” G20 F/C class. Add \$18.00 for double ball bearings. **\$71.95**

PS-9021 Velociraptor VR eXtreme “NEO Open Hole Setup with a specially made .500 diameter VR eXtreme machine wound armature on our race proven Intruder blank and includes X7 brushes. This motor was built for the “Ultimate” bracket racer and “Outlaw NEO” class racer. Add \$18.00 for double ball bearings. **\$74.95**

PS-9025 Velociraptor VR Open “NEO” Open Hole Setup with a specially made .500 diameter custom hand wound all-out Topgun style armature featuring our EDM commutator, wound on our race proven Intruder blank. Comes w/Copper Hardware & Double ball Bearings. Standard wind 18/24.5, and also available in 25/25, 15/24, 14/24, 14/23 **\$173.95**

PS-9031 Velociraptor WF Wolf - “NEO” Open Hole Setup with a specially made .500 diameter WF “Wolf” machine wound armature on our race proven Intruder blank and includes X7 Euro brushes. This motor was built as the next step up from the VR eXtreme motor for the ultimate “Outlaw NEO” class racer. This is the “Hottest” CNC machine wound armature available. Recommended starting gear ratio 15/54. (Sidewinder) Add \$18.00 for double ball bearings. **\$74.95**

PS-9300 Micro Raptor, DBL BB, CPR Hardware, .300 Stack/.500 Dia. with VX 30/26 CNC wound armature, Champ Red Springs and X7 Euro brushes. This motor was developed for “No Bar Racing” & light weight sidewinder drag cars. **\$101.95**

DRAGMASTER SPEED PARTS w/USA Made Armatures

PS-101 Sportsman "550" Big Block GP20 Drag Motor **\$63.95**

PS-102 Sportsman "550 Big Block GP20 Armatures **\$42.50**

PS-120 “THE BOSS 490” Motor This motor has standard .570 airgap and comes with our PS-121 “BOSS” armature. The set-up is blueprinted and copper hardware is installed on the endbell. Add 18.00 for double ball bearings **\$63.95**

PS-121 “THE BOSS 490” Armature This armature is specially wound on our .490 stack M-2 blank. It is a drop in fit for all D-can motors **\$42.50**

PS-718 Dragmaster Competition series Purple Dot Setup with Oilites. It features our Dragmaster C-can sized and aligned with our new Purple Dot Quad Magnets. They are matched, epoxied in place and honed to .520. This setup is completely blueprinted and ready for your choice of armatures. **\$80.00**

PS-719 Dragmaster Competition series Purple Dot Setup with Ball Bearings Same as PS-718 but with high quality ball bearings **\$98.95**

PS-725 Dragmaster SPEC Motor This motor was Dyno designed to fall between the PS-101 and PS-748-20 in performance but on a budget. This motor is based on our race proven "SRS" set-up and has an all new SPEC armature featuring a softer launch than the Quad 20 but will still pull 110,000+ rpm at the top end! This motor comes with X7 brushes and is double security sealed to prevent tampering. **\$63.95**

PS-737-D The Dragmaster Sportsman Setup This setup includes our race proven Dragmaster can and endbell w/copper hardware, Mega III FX magnets installed with spring clips. This setup is approved by the UDA for competition. **\$42.50**

PS-738-D-12 The Dragmaster Sportsman X-12 Motor This motor includes our race proven Dragmaster can and endbell w/copper hardware, Mega III FX magnets installed with spring clips and a PS-106 .513 X-12 40* armature*. **\$69.95**

**40 degrees timing is standard. Custom timing available on request.*

PS-738-D The Dragmaster Sportsman G20 Motor This motor includes our race proven Dragmaster can and endbell 2/copper hardware, Mega III FX magnets installed with spring clips and a PS-703 .513 G20 armature*. **\$69.95**

**40 degrees timing is standard. Custom timing available on request.*

PS-739-D Dragmaster Sportsman SSA Spec Motor This motor includes our race proven Dragmaster can and endbell, Mega III FX magnets installed with spring clips and a Specially tagged .513 G20 armature with 40 degrees timing*. This armature is tagged "SSA20", dyed a special color and is only available in this motor, not separately. The motor screws are ground and the can is sealed to prevent tampering. X7 Brushes are installed. **\$69.95**

**Custom timing is not available on this motor*

PS-747 Dragmaster C-can This C-can was designed from the ground up strictly for Drag Racing. **\$19.95**

PS-747-B Dragmaster C-can Re-Sized for our thicker magnets **\$24.95**

PS-748-12 Dragmaster Competition series Purple Dot Quad Drag 12 Motor. It features our Dragmaster Competition series Purple Dot Quad magnet setup assembled with a PS-106 Hemi Drag 12 (custom timing available), modified G7 brushes and shunts. This motor is completely blueprinted and broken in ready for installation into your car. Standard with bushings and available with high quality ball bearings. Add BB to the part number and \$18.00 to the following price for ball bearings. **\$126.95**

PS-748-20 Dragmaster Competition series Purple Dot Drag 20 Motor Same as PS-748-12 but with our PS-107 Hemi Drag 20 armature.

Add BB to the part number and \$18.00 to the following price for ball bearings. **\$134.95**

PS-733 Dragmaster Competition series Purple Dot Top Gun Motor Same as PS-748-20 but with our PS-710 Topgun 84.5 armature.

Add BB to the part number and \$18.00 to the following price for ball bearings. **\$159.95**

PS-909 Purple dot Dragmaster Quad Magnets This magnet has been in development for over one year and is now ready. This is a special new type of ceramic material that has more gauss and higher coercive force. These magnets are assembled with special orientation to give unbelievable mid-range torque and RPM. They are stronger than .190/.200 thick magnets but are only .170 thick for easier motor assembly. **\$39.95**

Dragmaster USA Made Armatures & Accessories

PS-105 *Drag Style S16D- .513 OD - .480 min. stack length @ 45 degrees **\$42.50**

PS-106 *X-12 Hemi - 40 degrees timing .510 **\$49.95**

PS-107 *Grp 20 Hemi - 48 degrees timing .510 **\$49.95**

PS-108 Drag H27- 46 degrees timing, available in .445 to .460 diameter. Specify when ordering. **\$99.00**

PS-710 Top Gun 18/24.5 - 18 degrees timing .510 **\$115.00**

PS-712 *Pro Outlaw D20 Hemi .510 **\$49.95**

PS-715 *Pro Outlaw D12 Armature **\$49.95**

PS-713 Top Gun Custom Winds. Specify when ordering. **\$115.00**

PS-852 Group 7 Drag armature 21 degree timing, .445 diameter, .860 long and with our EDM commutator.

\$115.00

Available in 13/23, 14/23, 15/23, 14/24, 15/24 Specify wind when ordering.

*These armatures are available in Hand Wound versions - Please contact ProSlot for Pricing and Availability.

MegaMaster series of Drag Racing motors & components

The new MegaMaster series motors feature our proven DragMaster C-can with the all-new Purple Dot - "S" series of 6 segment C-can magnet, and comes with CPR hardware. The armatures are wound on our state of the art CNC winder featuring our single strand, series wound, technology to create the ultimate in lower resistance & performance. Step up to the MegaMaster and re-write your raceway record books!

PS-718MM MegaMaster 6-mag Busing Setup **\$80.00**

PS-719MM MegaMaster 6-mag ball bearing Setup **\$98.95**

PS-733MM MegaMaster Topgun Motor **\$179.95**

PS-733BBMM MegaMaster Topgun ball bearing Motor **\$194.95**

PS-748-12MM MegaMaster GP12 Motor **\$138.95**

PS-748-20MM MegaMaster GP20 Motor **\$145.95**

PS-748-20BBMM MegaMaster GP20 ball bearing Motor **\$162.95**

PS-748-12S DragMaster GP12 with 6-Mags **\$122.95**

PS-748-20S DragMaster G20 with 6-Mags **\$130.95**

PS-748-20S-BB DragMaster G20 with 6-Mags and ball bearings **\$150.95**

PS-909S MegaMaster 6-Mags (Magnets Only) **\$39.95**

MegaMaster Armatures

PS-106MM MegaMaster GP12 Armature **\$99.00**

PS-107MM MegaMaster G20 Armature **\$115.00**

Armatures Made in the USA

*CNC Machine Wound Armatures

PS-206 P15 International - available in diameters from .480 to .500, standard length .860 **\$99.00**

PS-207 C12 - available in .480 to .500 dia., lengths of .750 to .860, standard timing 34 degrees **\$99.00**

PS-700 S16D **\$42.50**

PS-700B S16D .560 **\$42.50**

PS-700C S16C **\$42.50**

PS-700C-B S16C .560 **\$42.50**

PS-700S Outlaw S16D .450 stacks .520 **\$42.50**

PS-700S-B Outlaw S16D .450 stacks .540 **\$42.50**

PS-701 Box Stock X12 .513 **\$42.50**

PS-701B Box Stock X12 .540 **\$42.50**

PS-701BD Box Stock X12 .540 drill blank **\$46.50**

PS-701D Box Stock X12 .513 with drill blank **\$46.50**

PS-702 USRA Spec 15 .513, only available with 38 degrees timing **\$42.50**

PS-702D USRA Spec 15 .513, only available with 38 degrees timing, and drill blank **\$46.50**

PS-703 G20 .513 **\$42.50**

PS-704 Super Wasp .513 **\$42.50**

PS-704B Super Wasp .540 **\$42.50**

PS-705 Contender .513 **\$42.50**

PS-705B Contender .540 **\$42.50**

PS-706 16D .518 balanced or unbalanced **\$42.50**

PS-706B 16D .560 balanced **\$42.50**

PS-707 Infinity replacement armature for PS-315 RTR 30Turn 26 **\$42.50**

Note: Unless otherwise indicated standard timing is 38 degrees. If desired, order the timing of your choice. All armatures are produced with the M2 blank unless you request our Intruder blank.

*All armatures in the CNC Machine Wound section are available as custom Hand Wound Armatures. Please contact Pro Slot for pricing and availability.

Group 27

PS-211 Group 27 available in .480 to .500 dia., timing of 32, 35 or 40 degrees, standard length is .850 **\$99.00**

PS-800 Group 27 .459 diameter, timing of 32, 35 or 40 degrees, standard length is .850 **\$99.00**

Hand Wound Scale Racing Armatures

Scale Racing Armatures, .007 or .014 laminations - standard with Edm Commutators

PS-109A X-blank .665 long, .250 stacks,.014 laminations **\$120.00**

PS-109A-007 X-blank .665 long, .250 stacks, .007 laminations **\$120.00**

PS-109B X-blank .750 long, .300 stacks,.014 laminations **\$120.00**

PS-109B-007 X-blank .750 long, .300 stacks, .007 laminations **\$120.00**

PS-110A Mark 7 blank, .665 long, .250 stacks, .007 laminations **\$120.00**

PS-110B Mark 7 blank, .750 long, .300 stacks, .007 laminations **\$120.00**

Note: Scale armatures available in diameters of .450 to .500. Standard winds

31/27, 33/27, 35/28, 38/28, 40/28, 26/26. Custom winds available on request.

Group 7 armatures - standard with Edm Commutators

PS-220 Group 7 X-blank **\$120.00**

PS-221 Group 7 Mark 7 blank **\$120.00**

PS-851 Group 7 .459 blank **\$120.00** *Note: Standard length is .850. Standard winds available 15/23, 15/24, 16/24, 17/24, 18/24, 16/24.5, 17/24.5, and 18/24.5. Custom winds available on request.*

C-CAN MOTORS w/USA Made Armatures

PS-723 Group 12 Motor **\$67.75**

PS-723D Group 12 Motor with drill blank **\$73.75**

PS-729 Contender Motor - unbalanced **\$67.75**

PS-729B Contender Motor - balanced **\$67.75**

PS-730 Group 20 Motor **\$67.75**

PS-732 Super Wasp Motor **\$67.75**

PS-734 Super 16C Motor **\$67.75**

All motors come standard with our VIP can. If you want our SRS can add it to the part number

Note: All motors are standard with 38 degrees timing. If desired order timing of your choice. All motors come standard with Mega III Magnets. All armatures are produced with our M blank unless you request our Intruder blank.

Blueprinted C-Can Motors & Set-Ups w/USA Made Armatures

PS-740PRO Group 12 motor with Copper Hardware, epoxyed magnets honed to ~.529 to .530. **\$120.00**

PS-740 Group 12 Motor **\$85.95**

PS-741 Super Wasp Motor **\$85.95**

PS-742 Group 20 Motor **\$85.95**

PS-743 Quad 20 Motor **\$135.95**

PS-751 Group -12 Pro C-Can Blueprinted Setup **\$75.00**

PS-751B Group -12 Pro C-Can Blueprinted Setup .555 **\$80.00**

PS-760PRO Blueprinted motor with Copper Hardware, epoxyed magnets honed to ~.555 with your choice of:

(A) Contender, (B) Super Wasp, (C) S16C, (D) X12 - .540 Diameter **\$125.50**

All motors come standard with our VIP can. If you want our SRS can add it to the part number

Note: All motors are standard with 38 degrees timing. If desired order timing of your choice. All motors include straightened can, soldered oilite, matched magnets, G7 brushes, champion springs, aligned and honed brush hoods and are fully tested. All motors come standard with our Mega III magnets except PS-743 unless you request our Mega II magnets. All armatures are produced with our M blank unless you request our Intruder blank. Add \$18.00 for ball bearing motors Add \$9.00 for copper hardware.

MOTOR AND ENDBELL PARTS

Setups and Kits

PS-749VIP C-can Setup kit (without magnets) **\$24.50**

PS-749SRS C-can Setup kit (without magnets) **\$24.50**

PS-750VIP C-can setup with our Mega III magnets **\$37.00**

PS-750SRS C-can setup with our Mega III magnets **\$37.00**

Motor Cans

PS-714 Pro-VIP Blueprinted C-can - straightened perfectly **\$16.95**

PS-714 Pro-SRS Blueprinted C-can - straightened perfectly **\$16.95**

Endbells and Copper Parts

PS-618 C-Can Assembled Endbell w/Copper Hardware aligned and honed - undrilled **\$19.95**

PS-618EURO Assembled with Copper Hardware, aligned, Honed, and modified for comm clearance on our Euro Motors. (Will fit all Euro & Neo Pro Slot Motors – add \$9.00 for ball bearing **\$20.95**

PS-618FX D-Can Assembled Endbell with our Copper Hardware, aligned and honed. This is the same endbell used on “THE BOSS 490” motor – add \$9.00 for ball bearing **\$19.95**

PS-640 Magnet Clips for C-can 12 **\$4.67**

PS-641 Copper Brush Hood & Heat Sink set **\$9.00**

PS-642 Copper Hardware set complete -includes Copper hardware, oilite, spring cups and T5 Torx screws **\$12.00**

PS-643 Complete Endbell Kit - includes endbell, Copper hardware, spring cups, oilite and screws **\$15.00**

PS-711 Endbell with oilite bushing **\$9.50**

PS-716 2 x 5 Oilites 12-per bag **\$14.95**

PS-4015 Replacement 2x6 Euro MK1 Motor Can Bushing 6-per bag **\$6.20**

PS-717 Pack of 8 - T5 Torx 3/16 x .080 can and endbell screws **\$4.00**

PS-717B Bulk pack of 50 - T5 Torx 3/16 x .080 can and endbell screws **\$21.95**

PS-761 Alloy Spring Cups 6 pair **\$21.50**

C-Can MAGNETS

PS-912 MEGA III Matched Blue Dot Magnets .450 long **\$23.00**

BALL BEARINGS

PS-400 2 x 5 can/endbell ball bearing, unflanged & unshielded - for Cobalt racing (7 Balls) **\$9.00 ea.**

PS-401 2 x 5 endbell ball bearing, flanged and double shields -perfect for c-can endbells (7 Balls) **\$9.00 ea.**

PS-402 2 x 5 can ball bearing, flanged & double shields. Perfect for c-cans or Grp 7 cans (7 Balls) **\$9.00 ea.**

PS-410 3/32 x 3/16 axle ball bearings, flanged and double shields (10 Balls) **\$14.50 pr.**

PS-420 1/8 x 1/4 axle ball bearings, flanged & double shields (7 Balls) **\$14.50 pr.**

PS-430 2 x 6 can/endbell ball bearing, flanged & double shields - for Mura or Parma motors (6 Balls) **\$9.00 ea**

GEARS

PS-680 Polymer Gears 64 Pitch - The tooth shape was computer designed for less friction. All new hub design for truer running and will never spin on the hub. 32T-Brown, 33T-Pink, 34-Orange, 35T- red, 36T-yellow, 37T-silver, 38T-blue, 39T-violet, 40T-green - 6 per card **\$36.00**

PS-680-56 light weight Drag Spur Gear 56T Polymer 6 per card **\$42.00**

PS-682 Polymer Gears 48 Pitch - Same as PS-670 except 48 pitch. 26T-pink 27T-white, 28T-yellow, 29T-violet, 31T-blue, - 6 per card **\$36.00**

PS-684 Polymer Gears 72 Pitch 38-White, 39-Red, 40-green, 41-yellow, 42-pink, 43-black, 44-brown 6 per card **\$36.00**

PS-686 Polymer Gears 72 Pitch 15* angle, 42-pink, 43-black, 44-brown - 6 per card **\$36.00**

X7 Pro Brushes

PS-X7 – Pro Motor Brushes **6 pair \$25.00**

PS-X7B – Bulk Pack **50 Pair - \$195.00**

PS-X7 Euro – Turtled to fit our euro mini motors **6 pair \$31.00**

PS-X7 Hop-Up Kit (Full Brush) contains one set of X7 Motor Brushes and PS-605 Red Springs. **\$6.95**

PS-X7 Euro Hop-up Kit (Short Brush) contains one set of X7 Motor Brushes and PS-605 Red Springs. **\$7.50**

PARTS AND ACCESSORIES

PS-601 AGENT 86 Bushing Oil (pink) **\$5.99**

PS-602 AGENT 99 Bearing Oil (green) **\$5.99**

PS-603 Combo pack of both bushing and bearing oils. **\$10.49**

PS-605 ProSlot motor brush springs “Red” light tension. **\$13.50**

PS-607 3/32 Drill Blank Axle – 6 **\$14.95**

PS-610 Super Light Front Wheels - 6 per card **\$11.50**

PS-619 Lead Wire with Clips - 6 pair **\$26.00**

PS-620 Dragster leadwire with clips 16" long **\$6.00**

PS-622 Lead Wire - Bulk Pack of 10 feet **\$14.95**

PS-623 Production Motor Brushes 6 pair **\$10.60**

PS-624 Standard Brass Clips for lead wire 6 pr. **\$12.00**

PS-724 Armature Spacer Kit - Includes 2 phenolic and 8 brass motor spacers **\$4.50**

PS-726 Phenolic Motor Washers (package of 10) **\$4.50**

PS-914 Bulk Pack .007 Brass Motor Spacers (25) **\$7.50**

PS-915 Bulk Pack .003 Brass Motor Spacers (25) **\$7.50**

PS-916 Bulk Pack Fiber Motor Spacers (25) **\$7.50**

SPEED FX "POLY" NEO D-CAN MOTORS & ACCESSORIES

PS-2200 Speed FX Poly-Neo "Crazy Horse" D-can Motor with 40T28 .490 Stack Armature **\$28.95**

PS-2200S Sealed Speed FX Poly-Neo "Crazy Horse" D-can Motor with 40T28 .490 Stack Armature **\$29.95**

PS-2200-BP Speed FX 40T Poly-Neo "Crazy Horse" Motor - Blueprinted w/G7 brushes, red springs & epoxyed arm. **\$50.95**

PS-2201 Speed FX Poly-Neo "Man-O-War" D-can Motor with S16D .490 Stack Armature **\$26.95**

PS-2201S Sealed Speed FX Poly-Neo "Man-O-War" D-can Motor with S16D .490 Stack Armature **\$27.95**

PS-2216 Poly-Neo "Crazy Horse" Magnets D-Can fit - 1000+ Gauss **\$15.95**

PS-917 "Crazy Horse" Replacement armature - 40T28 **\$19.95**

PS-2300 D-Can Poly-Neo Set-up - Blueprinted for small Diameter Armatures (.520) **\$29.50**

PS-2304 Speed FX D-Can Poly-Neo Blueprinted motor with PS-700 American Made S16D Balanced Armature **\$64.95**

PS-2305 Speed FX D-Can Poly-Neo Blueprinted motor with PS-700S American Made 16D Balanced Armature **\$64.95**

PS-2307 Speed FX D-Can Poly-Neo Blueprinted motor with PS-706 American Made S16D
Balanced Armature **\$64.95**

PS-2308 Speed FX D-Can Poly-Neo Blueprinted S16D Econo ProStock Drag Motor w/PS-2109
Balanced Drag Armature **\$66.95**

PS-2308A Speed FX D-Can Poly-Neo Blueprinted S16D Econo ProStock Drag Motor w/PS-105
Drag S16D Armature **\$76.95**

PS-120 Poly Speed FX D-Can Poly-Neo Blueprinted Motor with "THE BOSS" 490 Drag Armature
w/silver hardware **\$64.95**

PS-120 Poly BB Speed FX D-Can Poly-Neo Blueprinted Motor with "THE BOSS" 490 Drag Armature
w/silver hardware & DBL BB's **\$82.95**

PS-130 Poly Speed FX D-Can Poly-Neo Blueprinted Motor with the "Wolf" (24t26) style Drag Armature,
Silver hardware, G7 Brushes & Red Springs **\$64.95**

PS-130 Poly BB Speed FX D-Can Poly-Neo Blueprinted Motor with the "Wolf" (24t26) style Drag Armature,
Silver hardware, G7 Brushes, Red Springs & Dbl BB's **\$82.95**

PS-131 The "Wolf" (24t26) style Drag Armature, .490 stack & 38* timing. The fastest CNC wound
D-can armature made for Drag Racing **\$42.50**
